#### 1 5 WHYS ANALYSIS

Find the real reason for a problem

When and How to Use:

- Use when you're facing a problem that seems straightforward.
- Start by stating the issue, then keep asking "Why?" after each answer you get.
- Continue asking "Why?" until you uncover the root cause.
- Then base your decision or action from a solid foundation.

##### EASY DECISIONS

<b>Problem:</b>	I'm always busy but I don't feel productive with my time
<b>Why:</b>	Because I get distracted by email.
<b>Why:</b>	Because I am constantly tempted to check my email, rather than work on important projects.
<b>Why:</b>	Because I want to be very responsive.
<b>Why:</b>	Because I don't want to miss important email, and have urgent messages sitting unread.
<b>Why:</b>	Because I don't want my manager or colleagues to think I'm not doing my job well.
<b>ACTION:</b>	Talk to my manager to find out what an acceptable response time for email is.
